Installing RCA and ICA certificates

RCA certificate can be downloaded here: <u>https://tap.vms.frcs.org.fj//Download/DownloadRcaCertificate</u>

ICA certificate can be downloaded here: <u>https://tap.vms.frcs.org.fj//Download/DownloadIcaCertificate</u>

NOTE:

•

Alternatively, you can obtain RCA and ICA certificates through your Developer Authentication (.pfx) certificate. For more information, see <u>Obtaining RCA and ICA Certificates From a PFX Certificate</u>.

To install RCA and ICA certificates, follow these steps:

1. When you begin the installation process, you need to select a location for the certificate installation. For both RCA and ICA certificates you need to select **Local Machine**.

- 	🚱 Certificate Import Wizard	×
	Welcome to the Certificate Import Wizard	
	This wizard helps you copy certificates, certificate trust lists, and certificate revocation lists from your disk to a certificate store.	5
	A certificate, which is issued by a certification authority, is a confirmation of your identity and contains information used to protect data or to establish secure network connections. A certificate store is the system area where certificates are kept.	rt
